- English Certificate – CEFR Level B1 (Intermediate)

ABOUT ME

As an enthusiastic Fresher Developer, I am eager to work in a professional and dynamic environment where I can apply my programming skills, gain hands-on experience, and develop myself comprehensively.
I have a solid foundation in mobile application development using Flutter, along with experience in building and managing CMS systems using C#, HTML, CSS, and JavaScript.
I am committed to continuous learning, staying up to date with new technologies, and contributing valuable solutions to the company's growth while enhancing my expertise in the field of Information Technology.

EXPERIENCE

Fresher Software Developer   *04/2025 - 11/2025*
Công ty TNHH Thương Mại KenGroup

- Contributed to the development and maintenance of K2POS, a sales management software system for the F&B industry.
- Frontend: Developed cross-platform applications (mobile, tablet, and web) using Flutter (framework) with the Dart programming language, applying the Clean Architecture model and integrating RESTful APIs.
- Backend & CMS: Built and maintained the K2POS CMS using C# (programming language) on the .NET Core (framework) platform, combining HTML, CSS, and JavaScript to develop web interfaces.
- Database: Utilized MySQL for data storage and management, and worked with DBBear for database visualization and query operations.
- Collaborated with the backend team to design and implement APIs, ensuring consistent and secure data flow between mobile and web platforms.
- Improved application performance, optimized UI/UX, and enhanced responsiveness across multiple devices.
- AppStore: https://apps.apple.com/vn/app/k2pos/id6739800849?l=vi
- CH Play: https://play.google.com/store/apps/details?id=com.k2pos.pos&hl=vi

PROJECT

2H&V Electronics E-Commerce Website   *2024*
Tech Stack: ASP.NET Core (C#), HTML, CSS, JavaScript, SQL Server

- Developed a full-stack e-commerce website for selling electronic devices.
- Implemented key features: login/register, cart, online payment, discount codes, and admin dashboard for product & revenue management.
- Designed ERD, Use-case models, and ensured database normalization.
- Focused on user-friendly UI, secure authentication, and data management.
